

Career Exploration Resources

California Career Zone (www.californiacareers.info) --- career exploration system with assessment tools and information on over 900 California occupations

California Colleges (www.californiacolleges.edu) --- primary source of information for College and Career Planning for California students and families

Exploring Career Information (www.bls.gov/k12/) --- Bureau of Labor Statistics website allowing students to explore career options: games, quizzes, videos, and employment data

JobStar Central (www.jobstar.org) --- Information about careers and educational preparation, salary information and job seeking resources

Career Key (www.careerkey.org) --- Career assessment to identify a career by matching your personality with careers, providing information to explore careers, electing a college major and isolating potential work related skills

My College Major (www.mymajors.com) --- Assessment incorporates interests, aptitudes and high school courses to identify both potential majors and colleges/universities.

Rocklin High School (www.rhs.rocklin.org) and Whitney High School (www.whs.rocklin.usd.org) --- College and Career Centers provide resources for exploring colleges/universities, admission requirements, military opportunities, scholarships, financial aid and community service opportunities/hours
