

Community Service

As a graduation requirement for both Rocklin and Whitney High Schools, students must complete 25 hours of community service work. Community service hours can be completed for non-profit organizations through clubs, athletic teams, or individually throughout the year. Students completing 150 or more community service hours are eligible for distinguished community service awards. Granite Oaks Middle School eighth grade students can begin accumulating community service hours following promotion (summer prior to entering ninth grade). Community service opportunities are listed on both Rocklin and Whitney High School websites. Students must document community service hours on the Community Service Contract form.
