## Group Verb Practice

**Directions:** In your groups (or at home if absent), read each of the following sentences and circle all the verbs in each sentence (this includes main, helping, and linking verbs). Again, this is a one shot deal for group competition. A group can only try once and must have all the sentences correctly identified. So, use your resources, each other, and your understanding of what verbs do in order to ensure your group's chance of winning. Good Luck! **Example:** Gerilyn really enjoyed eating her birthday cake.

1. Thomas is leading the overall competition.
2. The radio station has played that song three times today.
3. Those rules may be out of date for this tournament.
4. Have you heard today's forecast?
5. This ugly scarecrow should protect the garden from birds.
6. The kitten has been growing very quickly.
7. Today's after school activities have been cancelled.
8. Would that piece have completed the puzzle?
9. A chipmunk has been making tunnels under this field.
10. When will Sarah be visiting her cousins?
