

One of the hardest parts of 7th grade is to get students responsible for their education; to be invested in their learning. In order to help student accountability, we have designed a Missing Homework slip laid out below.

The Purple Slip below is given to students who failed to turn in their homework. The student is expected to not only complete the assignment he/she missed, but is also to get this form signed by the parent/guardian acknowledging the fact that the parent has been notified and that the student will make up this work. Failure to bring in either the missing work or the signed purple slip will result in a behavior slip for not following through on both parts. Further behavior slips will be issued if the student continues to not turn in both parts: the purple slip and the missing homework.
