

The Outsiders

Group Final Project

Directions: After completing the class activity, deciding on your stance of whether you like the book or the movie better, and creating your group, your job is to now go back to your notes, the book, the movie notes, and the Comparison/Contrast handout to develop your group presentation with specific details, documentation, and creativity. Your group must choose one of the following possibilities to clearly express your stance on which is better and why: a Power Point presentation, a video, a dress up story telling, a game show, mobile with presentation, a creative visual with a presentation, a choreographed/action type song, a play, or something else that you clear through me. **Your Presentations must have an Intro, Body, and Conclusion!!!!**

Remember, your groups must be 3-6 members, everyone must play and equal role in the actual presentation/speaking part, and the **presentation must be 7-10 minutes in length.**

The presentations must include/address the following parts:

1. The characters
2. The Setting
3. Key events
4. Plot/action
5. Symbolism
6. Foreshadowing

In order to accomplish your goals and pass this project you will be given class time to plan, prepare, and practice. However, your group must also plan time out of class before/after school, during lunch, etc. in order to effectively deliver the information in a polished, prepared manner. So use your time wisely. Presentations begin Tuesday May 27th and finish by Thursday the 29th. So make sure that you plan accordingly. This is 100 points in Assessments/Projects and it will make a difference in your overall grade. Plus, the best group from each class will get extra credit.
