<i>Affordability</i>	<i>“Bottled water costs 2,000 times more than tap” (7) “Spend money improving water systems” (28) “People are choosing to pocket the hundreds or thousands of dollars they would otherwise be wasting on bottled water” (32)</i>
Summary: <i>Drinking tap water wastes money for the consumer because it’s nearly free. If free drinking water systems were improved, it would be free and healthy for everyone.</i>
