COMPREHENSIVE SEXUAL HEALTH AND HIV PREVENTION EDUCATION

The California Healthy Youth Act: EDUCATION CODE §§ 51930-51939
(2 page document)

January 10, 2023

Dear Parent/Guardian:

California state law, the California Healthy Youth Act, requires that comprehensive sexual health education and HIV prevention education be provided to students at least once in middle school and once in high school starting in grade 7. **Rocklin Unified School District students in grade 7 and 9 will be provided this instruction.**

Underlying this course, is the following philosophy that guides the teacher and curriculum:

The Rocklin Unified School District Comprehensive Sexual Health/HIV Prevention Education will present age appropriate, factual information based on current scientific evidence which empowers the student to follow a course of abstinence and other healthy sexual attitudes and behaviors, and recognizes the family as the primary provider of sex education.

Instruction must encourage students to communicate with parents, guardians or other trusted adults about human sexuality. Instruction must be medically accurate, age-appropriate and inclusive of all students. It must include the following:

- Information about HIV and other sexually transmitted infections (STIs), including transmission, FDA approved methods to prevent HIV and STIs, and treatment
- Information that abstinence is the only certain way to prevent unintended pregnancy and HIV and other STIs, and information about the value of delaying sexual activity
- Discussion about social views of HIV and AIDS
- Information about accessing resources for sexual and reproductive health care
- Information about pregnancy, including FDA approved prevention methods, pregnancy outcomes, prenatal care, and the newborn safe surrender law
- Information about sexual orientation and gender, including the harm of negative gender stereotypes
- Information about healthy relationships and avoiding unhealthy behaviors and situations
